I have an inspection scheduled for June 21 – 22. Otherwise, am free for the other days.
If that doesn't work for the rest, I can talk to John Jurevis about choosing a different date for our inspection.

CB.

I have a concert on 6/28, so I would prefer the week of 6/19.

I could still make the concert on 6/28 *if* we leave for home early enough. But since that is not able to be predicted, the week of 6/19 is better for me.

Thanks.

Subject: Dates proposed for Central Sands Inspection

Hi Andi, Carla and Joan:

I have spoken to CSD attorney, Mr. David Crass and he has suggested two weeks that work for CSD and for him to be available for the CAFO Inspection at the facility. I need to know if these dates will work for us as well.

The weeks they proposed are June 19 or June 26. We would be staying two nights. The first day would be a travel day to Nekoosa, WI- probably stay in Saratoga, WI. The next day - start at 8 or 9 am and end around 5 with a production area walk around, maybe look at some fields that have some concerns and go through the checklist. The next day would be scanning documents and asking question about their Nutrient Management Plan. I am hoping that they will have a lot of information on CDs that we can copy and leave that same day for home. The first and last day will be long days so Proposed Travel Comp Time will need to be entered.

Please let me know by **Wednesday May 3, 2017** about the weeks of June 19 and June 26 if any days within those weeks would not work.

Sincerely,

Cheryl Burdett
